CAREER EXPLORATION GUIDE

CAREER EXPLORATION GUIDE

04

Hello!

Welcome to the career exploration journey. This guide will help you to explore your career.

When we are standing clueless in the middle of nowhere, we usually need a map to know where we are heading and don't get lost. Hence, you'll also need a map to understand how to start your exploration.

CAREER EXPLORATION ROADMAP

Remember!

A career journey is **not straightforward process** ; it consists of **several steps** and requires **iterations** along the way. It is also a personal one, Some people might just need 1-2 iterations to finally find their dream career, while others may take years to figure it out.. and that's OKAY! You can go at your **own pace** and there's **no shortcuts**.

To make this process a little less intimidating, we will break it down into **3 phases: Explore in breadth, explore in depth, and explore university majors**.

1 In Breadth Exploration

This phase lets you taste **a bit** of a career. You will explore through **many options** and pick some that catch your attention.

2 In Depth Exploration

In this phase, you are to get **hands on & real life experience**, so you will get more perspectives of a certain career.

3 Majors Exploration

This phase helps you sort the possible **majors** that will **lessen your skill gap** for pursuing your dream career after graduating.

PHASE 1

EXPLORE BREADTH

EXPLORE BREADTH

Welcome to **Phase 1!** In this journey, we would like to **discover** areas which we have never seen before. Now we will help you to kick-start of it, here is a recommended steps to explore the available career option :

1 Reflect And Shortlist

Before we go through the journey let's find out what you're **passionate** about? This will help you **determine** how to **start a journey** so you will be clearer on which steps to take.

You can fill in the reflection worksheet.

Once you're done, you can **create a shortlist** of careers to explore first. Match the career areas that you get from the reflection above to its following career roles in our career bank database

2 Understand The Basic

During this step you will gain **basic information** from each career before you dig deeper. Be a sponge who can absorb all the information!

Start **picking 5-10 careers** that you might think are suitable for you and list it down. With our career bank database and youtube playlist you can understand some basic information about the career.

07

3 Virtual Hands On Experience

To help you get a **grasp on what it feels** or what to do in a certain career, check out some **career modules** that provide a summary of the career, the types, and some **fun case studies** that will challenge **your skills** and **understanding**. Excited? Okay, let's do it!

Career Module Website (<https://career-module.all-inedu.com/>)

We also recommend you to access forage.com to get the internship experience in notable companies, to see what it's like to work for them!

4 Talk It Out, Ask The Question!

Some of you might have several ideas of a certain career, but you want to know from those who are living it on a daily basis. The purpose of this step is to get a **first hand account** from **professionals** in the field. Ask your mentor to help you **connect with professionals** !

5 Reflect Again : Which Careers That I Want To Learn More About?

Let's pause for a while to **reflect** again. Fill in this talent interest matching worksheet to help you sort things out and finally, **narrow down** your career choices to **3-5 types** from your previous shortlist.

60

PHASE 2

EXPLORE DEPTH

#TakeOnYourFuture
#ItsALLinThePrep

SKILLS DEVELOPMENT

Welcome to Phase 2. In this part, we will challenge you to be more **committed**, to **invest more time**, and to do **more work** to enhance your **skills**.

We will guide you to explore deeper into the career that you have been sorted. Here we have a list of activities that you can do!

1 How Should I start?

You may be wondering where and how to start understanding the overall aspects of a career you picked. Just go to the provided career-specific online courses and **complete the basic** course one by one.

10

2 Just Do It!

Now it's your turn to try it yourself! Psst, ALL-in Eduspace can help you improve your understanding and skills about certain careers through our **annual program** and **events**, which are:

- a. **Career Bootcamp**, an intensive 2 day technical, case study based workshops to help you experience what it's like doing a certain career.
- b. **PassionXplorer Work Experience Program**, A 1 week program where you will brainstorm, design, and pitch solutions for a company.
- c. **Industry Field Trip**, company visits that will take you on the backstage processes of leading companies, labs, and other institutions.

You can ask your mentors about this to keep yourself updated with the information.

3 Power Group!

It is time to put everything into real work. You will be **paired up** with other mentee(s) with the same interest to create **group projects**. Ask your mentor about this!

4 Single Fighter!

Once you feel more confident, you can **start ideating** for certain **projects** and get paired up with the mentors with respective expertise. It can be a digital platform, physical products, research, or any projects that sparks your interest.

5 Internship

The next step is to **immerse** yourself into a **real working environment**. You'll get connected to several companies where you can apply for an internship.

6 Have A Discussion With Yourself

Fill in this quick reflection before moving on to Phase 3. The goal is to know your **skill gaps** and the **majors** that will possibly fit in it.

13

PHASE 3

EXPLORE UNIVERSITY

#TakeOnYourFuture
#ItsALLinThePrep

MAJOR EXPLORATION

Welcome! Now you are in **Phase 3!** The goal of this phase is to determine your possible majors. To achieve your dream career, we should make up the skills gap by taking the right major. Follow these steps below:

1 Research Possible Major

Go back to our **factsheet** to understand which major could fit your dream career. List out the major that could fit your dream career!

2 Use Your Investigative Skills: Look Through The Syllabus/Curriculum For Each Major

Some universities might have the same title of a major, but compose the courses/subjects differently. Use the guidance to help you compare available majors in several universities.

3 Let's Do The Work:

Complete The Crash Course For Certain Major

We have some recommendations of **courses aligned to certain majors**, so you can learn the specific or foundation topics that accelerate your learning process in the first year.

4 Reflect & Iterate

Appreciate yourself for the journey that you have been doing! Let's do the **last reflection** to see what you have completed so far.

As T.S Eliot said: **"THE JOURNEY NOT, THE ARRIVAL MATTERS."**
Keep exploring, expand your knowledge along the road, and you'll eventually discover yourself!

LET'S START EXPLORING!
